

**Organizational Project
Management
(OPM3®) Training**

Organizational Project Management (OPM3®) Training

Class Length: 4 Days

PDU's : 16

Category: Project Management

Program Objectives:

By the end of the program, participants will be able to:

- Explain key concepts in OPM3®
- Define the steps involved in an OPM3® assessment
- Identify best practices
- Identify the OPM3® Directories
- How to prepare for an OPM3® Self Assessment
- Understand the structure and (under) lying relations between PPP, SMCI, Best Practices, Questions, Capabilities and Outcomes

Course Synopsis

Organizational project management is the systematic management of projects, programs, and portfolios in alignment with the achievement of strategic goals. The concept of Organizational Project Management is based on the idea that there is a correlation between an organization's capabilities in Project Management, Program Management, and Portfolio Management, and the organization's effectiveness in implementing strategy. This 4-day programme is an excellent way to prepare for the entrance exam, the first step in becoming a PMI® Certified OPM3® Assessor or Consultant.
